

A Vote for Accountability

EVERY FACET OF ELECTIONS

HBA's experienced staff attends to every detail of an election, large and small, from the initial examination of the constitution and by-laws of the union or organization involved, through personal discussions with the officers and candidates, followed by strict and impartial supervision of the actual voting, down to the final certification of the results. HBA can verify the election procedure and the results in a court of law. Our Electronic voting procedure comes with a paper trail.

OUR PERFECT RECORD

Because of our strict attention to detail, our expert staff and the scrupulous procedures we adhere to, not one of the more than 25,000 elections we have conducted or supervised has ever been voided for any reason, or found unacceptable by any membership.

Since 1909, the planning, conducting, supervising and certifying of elections have been our primary endeavor. We are election specialists whose knowledge, experience, reliability and dedication to proper election procedures are unsurpassed. We invite you to call us to discuss the ways the HBA can economically insure the integrity of your next election anywhere.

OUR HISTORY

Spurred by the scandalous election frauds, which prevailed in NYC in the early 1900's, a group of outstanding civic leaders, led by former President Teddy Roosevelt, brought about the formation of the Honest Ballot Association in 1909.

The HBA has become involved in the study of election law, recommendations to improve election law, and many other educational pursuits.

HBA TODAY

With its vast experience in conducting thousands of elections, the HBA remains one of the nation's leaders in insuring proper voting procedures.

HBA employs the latest data processing technology and highly skilled personnel, and is involved in supervising and conducting corporate elections. A diversified group of civic, educational and philanthropic organizations have sought the advice and assistance of the HBA. The HBA has also conducted collective bargaining elections between management and labor and has handled elections for large housing cooperatives, credit unions and student bodies of prestigious colleges and universities. Many organizations have designated HBA as their electoral agent within their constitutions and by-laws.

In recent years, we have incorporated hi-tech equipment with our election procedures, including, but not limited to: Scanners, Internet Voting, and Touch-Screen Technology.

Founded in 1909 by Theodore Roosevelt.
